## FEDERAL MILK ORDER BULLETIN

for the  
Milwaukee, Northeastern  
and Madison Marketing Areas  
C. T. McCleery - Market Administrator

NOVEMBER 1965

### USE OF FRESH MILK SAMPLE TESTS UPHELD

On September 16, 1965, the Judicial Officer of the United States Department of Agriculture issued a Decision and Order in which he ruled that the tests of the fresh milk samples of producer receipts taken by employees of the Market Administrator at Adam L. Liptak's plant in Westfield, Massachusetts, in the November 1-15 and December 1-15 periods of 1963 "... were the only reliable data available as to the butterfat bases for producer payments. . . ." Mr. Liptak had petitioned the Secretary of Agriculture questioning whether the Market Administrator had acted properly in disallowing the use of tests of composite samples as a basis for payment to certain producers in the two periods in 1963. Mr. Liptak further questioned the Market Administrator's decision that the producers payments should be based on the average tests of fresh milk samples of their milk taken by his employees.

(Continued on Page 8)

### JUDICIAL OFFICER UPHOLDS MARKET ADMINISTRATOR'S DETERMINATION

The Judicial Officer, Washington, D.C., issued a decision and order on September 1, 1965, in which he found the Market Administrator's determination that the plant of Owen Dairy Company, Inc., Wausau, Wisconsin, did not qualify for pool participation was in accordance with law. Market Administrator employees had observed the operations at the Owen plant and other plants to which Owen reported milk to have been moved. On the basis of these observations it was found that the milk moved to the second plant, but not unloaded therein, could not be considered as a receipt for purposes of qualifying the Owen plant. The Judicial Officer found that the handler had not introduced evidence to refute the observations upon which the Market Administrator based his determination.

# WISCONSIN FEDERAL MILK ORDER BULLETIN

Published Monthly By  
Federal Milk Market Administrator  
3034 West Wisconsin Avenue  
Appleton, Wisconsin  
for the

Milwaukee, Northeastern and Madison Marketing Areas

This bulletin is primarily to provide producers who are not members of cooperative associations with market information in accordance with §1039.74 of the Milwaukee Wisconsin marketing order, §1045.75 of the Northeastern Wisconsin marketing order, and §1051.77 of the Madison Wisconsin marketing order.

## COMPARISON OF DAILY PRODUCER DELIVERIES TO DAILY CLASS I UTILIZATION

*Use Pesticides Safely*  
**FOLLOW THE LABEL**

This is the Department's new pest control symbol pointing up the need to protect the farm with its quality food and fiber products, the home and garden, forest and wildlife, water and other natural resources from both the ravages of pests and potential hazards resulting from improper pesticide use. The symbol will appear on all USDA publications related to pests and their control.

## Fresh Milk Sample Tests Upheld (Cont'd from page 1)

The dispute arose after the Market Administrator had notified Mr. Liptak that the tests of fresh milk samples taken by the Market Administrator's employees had differed widely from the tests of the handler's composite samples for the first half of November and December 1963. The Market Administrator issued Underpayment Notices to the handler based on the tests of the fresh milk samples which called for additional payments totaling \$179.70 to be made to certain of the handler's producers.

On July 23, 1964, Mr. Liptak filed a petition for administrative review of these findings. An answer to the petition was filed by the Deputy Administrator of the Agricultural Marketing Service on August 13, 1964. On March 2, 1965, a hearing on the petition was held before Hearing Examiner Will Rogers in Springfield, Massachusetts. The Judicial Officer's decision upholding the Market Administrator's use of fresh milk sample tests was based on evidence presented at the March 2 hearing.
